

( go beyond technology )

“Superior  
business  
decisions can  
only be  
achieved with  
robust insight.”

## **VOX ENTERPRISE LIFECYCLE, A MULTI-DIMENSIONAL PERSPECTIVE**

Our Multi-Dimensional approach enables a comprehensive view of your business. In addition to discovering technology strategies and tactics, VOX Lifecycle includes a more robust view of organizational objectives, goals, priorities and drivers relative to business, finance, people, process and risk.

---

### **VOX LIFECYCLE, THE ROAD MAP & METHODOLOGY**

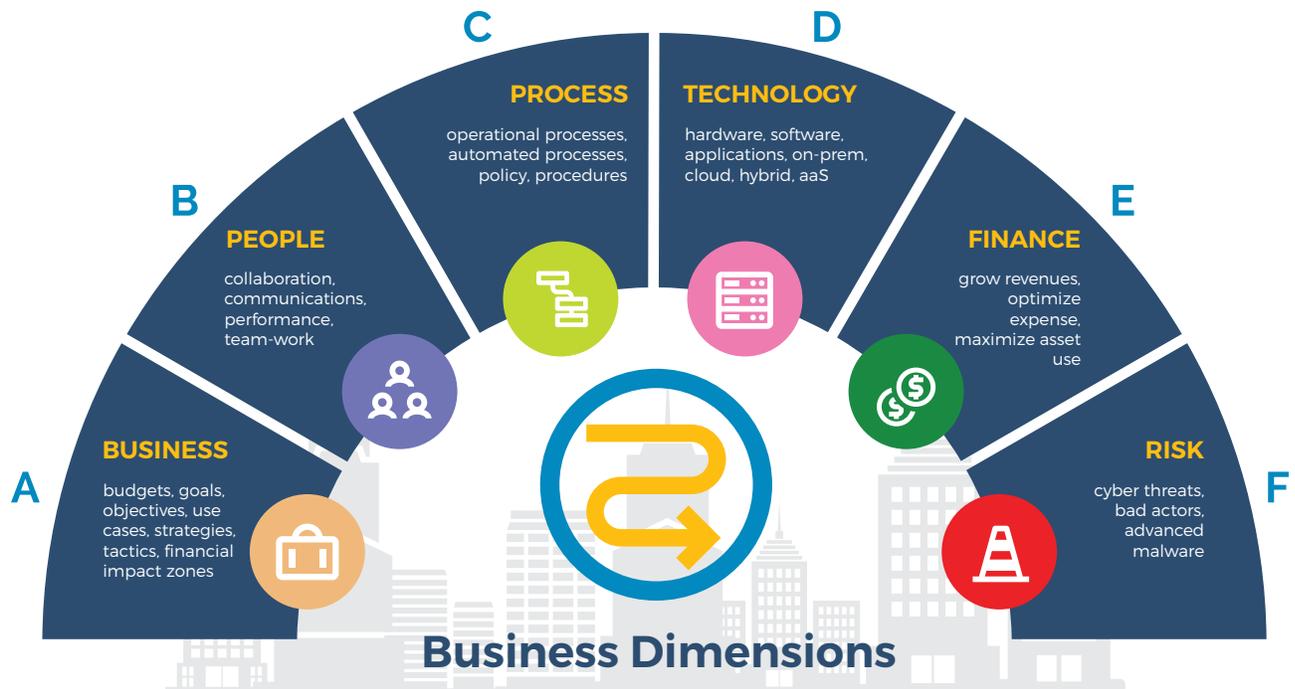

VOX Enterprise Lifecycle Management (VOX Lifecycle), is our proprietary, consultative framework designed to assist and enable our clients to make informed decisions to achieve their desired business outcomes. VOX Lifecycle provides a prescriptive, step-by-step methodology and broad range of specialized consultative professional services to ensure efficiency and thoroughness. At the heart of our business discovery efforts is a focus on Financial Impact Zones, where we identify and bring to light the elements that drive financial health.

We help you prosper.

# Business Optimization is Multi-Dimensional

Organizations that are serious about Digital Transformation are also serious about gaining comprehensive, multi-faceted insight. With VOX Lifecycle, you get an enterprise-class methodology and a team of experts who are with you every step of the journey.

## Program Highlights

VOX Lifecycle provides access to a broad range of value-based consultative offerings. Listed below are some of our most popular consultations:

### BUSINESS STRATEGY ANALYSIS

An Executive level engagement to discover and document the Client's business vision, goals, strategies and tactics. Through this effort we deliver detailed findings that include to business objectives & KPI's for target business units, advanced use cases, financial impact analytics and more.

### PLATFORM CONSUMPTION REVIEW

A business and technology strategy engagement to discover and document the Client's technology infrastructure investments (hardware, software, network architecture, application portfolios). We deliver findings and recommendations for an optimal platform strategy considering on-premise, cloud, hybrid and as-a-service.

### PROCESS OPTIMIZATION (VPOP)

A line-of-business engagement to optimize operations and capture new financial upsides as part of the outcome. With vPOP, we take a deep dive into operations to identify and addressing critical areas for cost gains and efficiencies. We deliver findings and recommendations to optimize operational processes, technologies and people, all while yielding substantial returns to the bottom line.

### SECURITY AUDIT

A technology, policy and process centered engagement. In this effort, you will gain clear visibility into the risks inside your network. We deliver findings and recommendations to improve your risk posture and understand the threat vectors that are at play within your enterprise.

### TECHNOLOGY ADOPTION ASSESSMENT

A people, process and technology engagement. This effort will enable your organization to get the full value from your technology investments. We deliver findings and recommendations for technology utilization, software version relevance, feature enablement, user training and more.
