Digital Transformation begins with a thorough understanding of your existing investment in technology.

VOX LIFECYCLE PROGRAM

ABOUT LIFESIGNS

VOX Lifesigns is a powerful, cloud-based tool that evolves traditional asset management into an entirely new stratosphere, driving new layers of visibility, productivity, flexibility and transformation.

Lifesigns leverages the power of big data, data mining, machine learning and advanced analytics to deliver the industry's leading application for enterprise lifecycle management. Through our modern UI, you now have insight into every single asset that is part of your IT infrastructure! Every piece of hardware, every deployed software, and every maintenance agreement.

a modern UX enables simple access to any level of detail

ENLIGHTEN, EMPOWER AND ENABLE YOUR ORGANIZATION

- **Comprehensive Visibility**
  Hardware, Software, Maintenance Agreements.
- **Over 3,000 Manufacturers**
  Cisco, Avaya, HP, Dell, IBM, Polycom, Palo Alto, EMC...

Enabling Enterprise Lifecycle Management with the industry's most innovative, multi-vendor solution.

VOX LIFECYCLE PROGRAM

LIFESIGNS FOR THE ENTERPRISE

Today, technology transformation is a daily cycle that continues to accelerate. The cloud, virtualization, and digital technology architectures have made dramatic technology shifts commonplace for many organizations. These shifts often come at the expense of IT departments that are already under-staffed, under-budgeted, and being asked to do more with less. VOX Lifesigns has been developed for IT teams to keep pace with these cycles, reducing their workload and integrating with existing IT framework.

LEVERAGE EXISTING TECHNOLOGY INVESTMENT

Most organizations have already invested in asset discovery and monitoring tools that provide a real-time profile of infrastructure health and application service dependencies. VOX Lifesigns allows you to leverage that investment by integrating with your existing IT discovery and management tools to add real-time lifecycle management, automated transformation modeling, and global market infrastructure analytics.

SEAMLESS INTEGRATION

VOX Lifesigns allows you to optimize the value of the tools you already own. Our solution integrates seamlessly with the following: Service Now, Cisco Systems, Oracle/Netsuite, Salesforce, Kaseya, SolarWinds, Microsoft, ConnectWise, Vistara, Nagios, Logic Monitor and more.
