

Enterprise Cloud

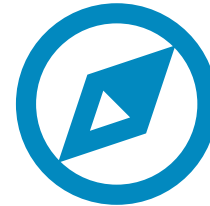

**The technology world has shifted.
What gear are you in?**

VOX provides consulting and solutions to support your journey with the enterprise cloud. Need help understanding solutions from different vendors and how they align to your business goals, we can help!

**With the Cloud,
Enterprise technology buyers
now have greater options.**

In addition to more intuitive and more robust on-premise solutions, cloud-based solutions have achieved a new level of "completeness", where their cost, features, accessibility and security protection have made them a serious alternative for many modern organizations. Ultimately, cloud-based technologies offer organizations another tool, or arrow in their proverbial quiver, as they look to ways to improve their business and outshine the competition.

BUSINESS TECHNOLOGY ASSESSMENTS

We have many different technology assessments available. As we work to understand your organization, our Lifecycle Team will recommend the most appropriate assessment(s) for your situation. Results will be presented to Client Executives at periodic Quarterly Business Review (QBR) meetings.

Available Assessments:

- ➔ Unified Collaboration Assessment
- ➔ UCaaS Assessment
- ➔ Contact Center Assessment
- ➔ Network VOIP Readiness Assessment
- ➔ Network High Availability Assessment
- ➔ Network Security Assessment

We help you prosper.
